

semester Project

**50.1 million disabled persons.
12 weeks. 5 engineers.
25 USC students.**

**Final Review
April 30, 2008
Location: SGM 124**

Student teams led by engineers from Google, Amgen, and NASA have spent 12 weeks developing free, innovative technology that empowers persons with physical and mental disabilities. Join us and a panel of guest judges for a final review of their work.

Dinner @ 6:30 PM. Presentations @ 7:00PM.
Also: **Sprinkles** cupcakes.
